

## **THE MALAYSIAN JOURNAL OF INTERNATIONAL RELATIONS**

The Malaysian Journal of International Relations (MJIR) is an open-access, peer-reviewed journal published annually by the Department of International and Strategic Studies, Universiti Malaya. The MJIR welcomes original contributions related to international relations, foreign policy, diplomacy, political science, international political economy, strategic and security studies, and related fields, to be considered for publication. In particular, the journal welcomes manuscripts with a focus on international relations in the Asia-Pacific.

### **Objectives**

The world of international politics in the 21<sup>st</sup> century is a dynamic one, with challenges as well as opportunities. Contemporary news highlights the threat of nuclear proliferation, of terrorism in various parts of the world, climate change, and of the continuing side effects of the financial meltdown. Equally, there are opportunities to advance such causes as nuclear disarmament and crisis resolution. Hence, there is a need for scholars to address the challenges and arising issues in contemporary world affairs. Along these lines, the objectives of the MJIR are to promote scholarly research on international relations and strategic studies, to provide a channel for the publication of articles based on research, original thoughts, and commentaries on these topics, and to stimulate further debates and interests in the study of international relations.
